SAP® Solutions
SAP S/4HANA® solution for central finance foundation, SAP HANA® Enterprise Cloud, and SAP® Financial Closing cockpit

Energy provider giant Enel is one of the most technologically diversified companies operating in the global renewables sector. So when it came time to energize its financial closing operations, Enel turned to SAP S/4HANA running on SAP HANA Enterprise Cloud. Now, processes that previously took days to finish are accomplished in a matter of hours.

Before: Challenges and Opportunities

- Distributed ERP and data warehousing systems supporting more than 484 companies
- Inefficient reporting tools producing many unneeded reports
- Redundant manual checks
- Lack of transparency

Why SAP

- Integration and simplification of processes
- Ability to harmonize data from several different systems
- Top-notch, experienced implementation team
- Secure and flexible cloud environment

After: Value-Driven Results

- Faster closing process
- Improved reconciliation process
- Harmonization of higher-quality data across regions and company departments
- Lower total cost of ownership through a simplified landscape

“In this fast-changing world, you have to innovate and digitalize or you can’t survive. We needed to do that for our closing process and reporting model, and that’s why we chose SAP S/4HANA for central finance foundation.”

Pasquale de Pascalis, Global Central Finance Project Manager, Enel SpA
